Caring and comfortable pet accommodation for your beloved pets

DESPITE long hours and hard work, Karen Walker of Cuballa Kennels & Cattery loves her job.

Cuballa Kennels has been in business for 19 months, providing quality and personal boarding for dogs in a relaxing, secure environment.

“We offer exceptional facilities that are spacious, air conditioned and heated, and security cameras are installed on-site to ensure the safety of pets,” Ms Walker said.

Ms Walker said she takes a lot of pride in her work and finds it very satisfying.

“I love seeing the dogs excited to come into the kennels.

“I enjoy seeing them settle into the routine and make friends.

“The cattery is a new component to the business and we plan to be open prior to Christmas. We offer spacious walk in modules, heating and cooling, and outdoor runs will be added in the future to all walk in modules.

“Running your own business takes hours that you never knew existed.

“You have to love what you do, or I don’t think you would survive the hours.

“However, bringing the business, or a new component, to life is extremely rewarding.”

New spacious walk in modules for cats.

**Secure, climate
controlled
kennels ensure a
comfortable stay.**
